We have added many new products to our range

Truly portable ULTRA freezers operate from both 12VDC and 240v ac. 25 LITRE CAPACITY

Four models : -80deg , -40deg , -18deg , +4 deg. [Click here for more info and prices](#)

AWARENESS TECHNOLOGY(USA) range of microplate readers and luminometers, very reasonably priced.

[Click here for more info](#)

Our popular **S4000 Sonicator** is now available configured for **PMCA research**. [Click here for more info](#)

Mini-P25 is a new **mini microplate centrifuge** for skirted, non-skirted, and all standard PCR plates. Use before and after thermal cycling to increase PCR yield. [Click here for more info](#)

Line-Gen K is the latest **PCR detection system** with the ability to handle one. Two, three, or four combinations of excitation and emission wavelengths. [Click here for more info](#)

Gel Imaging Systems from three different manufacturers cover all requirements from teaching to the most advanced research. [Click here for more info](#)

MGL96 series **thermal cyclers** for advanced work at economy pricing, featuring 14cm diagonal colour screen , 120 programs installed (unlimited with USB flash drive expansion). Available in standard , gradient , and in-situ configurations. [Click here for more info](#)

MMC Microscopy Imaging Systems for image capture and **FISH**. Integrated camera and software packages.

[Click here for more info](#)

Operon **Ultra Low Freezers** , chest and upright type , operating temperatures from -40 to -156 degrees. Capacities from 84L to 740L. [Click here for more info](#)

Lab Companion **Personal Low Temperature Incubators**. Two models 14 and 48 litre capacity.

[Click here for more info](#)

AMPR750 **Microplate reader** can perform ELISA measurements between the wavelength of 340~750nm with end point, two point, and kinetic measurement methods. The AMPR750 is built with an incubator and shaker for temperature sensitive kinetics measurements. . [Click here for more info](#)

The 24HT is a 24-column and high throughput **DNA/RNA synthesizer**. The 24HT Synthesizer is an economical and versatile platform that is ideal for synthesizing primers and probes, fluorescently-labeled oligos, and production synthesis with rapid cycle times. . [Click here for more info](#)
