NEW ACCUMAX PIPETHELP – electronic pipette controller , accepts plastic or glass pipettes from 0.1ml to 100ml
Battery operated with charging stand \$285-00
[-for information click HERE](#)

SICCO DESSICATORS. A range of German made rectangular dessicators to cover all of your drying and storage requirements.
Useable volumes from 4.5 to 280 litres. Types available include standard , inert gas filling , automatic , anti-static , vacuum.
[-for information click HERE](#)

Truly portable freezers operate from both 12VDC and 240v ac 25 LITRE CAPACITY
Four models : -80deg , -40deg , -18deg , +4 deg
[- for information and prices click HERE](#)

TRANSPORTABLE LABORATORY AUTOCLAVES- rapid and efficient
[-for more information click HERE](#)

CENTURION(UK) – advanced design centrifuges from micro to three litre capacity, special models for cytology , cell washing .
Reasonable prices
[-for more information click HERE](#)

VERTICAL LAMINAR FLOW CABINETS . Low cost – prices including delivery:

ZHJH-1106C	\$3,200.00	ZHJH-1109C	\$4,140.00	ZHJH-1112C	\$5,090.00	ZHJH-1115C	\$6,060.00
ZHJH-1118C	\$7,120.00	ZHJH-1209C	\$4,330.00	ZHJH-1214C	\$5,365.00

M965+ Microplate reader can perform ELISA measurements between the wavelengths of 340–750nm with end point, two point, and kinetic measurement methods. The M965+ is built with an incubator for temperature sensitive kinetics measurements. To interface with PC the M965+ comes with PC-Mate software to control, store, and transfer the analysis results from the instrument to the PC. **\$6,000**

LuMate[®] Microplate Luminometer

Economical - Self-referencing - User programmable Chemiluminescence capability for Every Lab \$3,910-00

Amazing CLIA power in a little black box!

The increased range and sensitivity of CLIA (Chemi Luminescent Immuno Assays) is no longer just for high volume labs.

LuMate[®] brings this technology to any size lab. **LuMate[®]** reads a 96-well microplate and calculates results instantly and automatically. **LuMate[®]** is an open system that permits users to program a wide variety of glow-type CLIAs.

ChroMate[®] Microplate Reader-Compact - Economical - Rapid reading \$3,040-00.

Amazing power in a little black box!A compact and economical 8-channel microplate reader. Reads absorbances of 96 wells in about 12 seconds.Offers a streamlined design with minimal footprint and superb optics to fit any size lab bench. Works with your PC to provide full access to high level software, reporting, curve fitting, and data storage to meet the requirements of modern laboratories. Versatile and flexible software comes ready to "plug and play" on a flash drive pen (included), and includes the following calculation modes: performs timed reads for kinetic assays. Absorbance, Cutoff, Cutoff Control, Cutoff Calibrator, Point-to-point curve fit, Multipoint % absorbance, Linear regressions, (linear, log, logit-log), Polynomial and Sigmoidal regressions (2nd, 3rd, 4th order, dose response, cubic spline).
